President's Report – May 2021

Welcome to our May newsletter. I do hope that you are all well.

We have just learned that our CWC insurance will not be increased in our new financial year.

Adam's presentation on resin was very good and enjoyed by all of our sixteen members who attended.

I've been thinking how much the world has changed since I started woodturning. Today we can see demonstrations of turning from all over the world at the press of some buttons. I began to think of all the books that taught us so much in the early days. Some of these are in our library, others on our shelves at home. Perhaps some of you would like to bring in a book that played a big part in your early turning days and discuss it with us.

Almoners Report

Following a report from Gordon regarding Charles Wayman having a stroke, I phoned him today. He is coming on and looking forward to returning to our club.

Peter Lucas is coming on and was able to drive his mother to Warburton. He is still 2-3 weeks away from golf.

Stay Safe, Stay Happy
