President's Report – February 2023

Well, Autumn is here again. Milder weather will encourage us back to the workshop. The woodwork world appears to be coming back into action. I hope that this applies to you too.

Our local woodwork store Timbercon has moved. The new showroom at 594-598 Edgars Rd, Epping will open for instore shopping on March 6 with a Grand Opening Event on Saturday April 1. Timbercon is also supporting Wood Dust 23 which will be held at the Meat Market 18th-21st May.

Later in the year the Timber, Tools & Artisan Show will be held at the Melbourne Showground on 11-13th August. Check out details of these events online and put them in your diary.

This week Gordon has organised a group activity with eight members all working on a similar project. The results should be interesting.

We hope to see you at our next meeting

Stay Well, Stay Happy.
John Wheeler

Projects

Peter Lucas has made these 'pencil' pens from offcuts from Beryl Watling's clock. The finish is CA glue.

The pens above have been made by Peter using toothbrushes in resin. The pens on the right are Beehive pens using hexagons in resin.

On the left Lionel Hart has completed his 4 point steady. The finish is nitrocellulose lacquer.

John Wheeler has made these vases. One is Casuarina and the others Cotoneaster.

Mario Fenech has made this vase from a Pine fence post and finished it with Shellawax.

Gordon Watt has made this pastry press.
