Presidents Message

Happy New Year Woodies,

I hope this year brings you good health and happiness.

An update on the cubby house - as you are aware the club committed to erecting a cubby for an injured veteran's family.

The unit was dispatched through Mainfreight two weeks before Christmas, it was to be delivered to a depot in Lismore to be then sent to Alstonville.

Half the cubby was delivered to Lismore even though the freight company swore all components were dropped to the depot at Lismore.

After numerous phone calls Mainfreight admitted the other half of the order could be anywhere Sydney, Melbourne, Perth or anywhere in between, after requests by the supplier to find the missing part it became obvious the freight company couldn't care less where the missing pieces were.

Mainfreight's contract is now under review with the manufacturer.

Standby for the next installment in the saga.

A considerable amount of work has been achieved during the break at the workshop and my thanks to all those members who gave up their time during the holidays.

Muriel is trying to establish a yearly programme for events and inhouse workshops, please give her assistance regarding the calendar.

HAPPY WOODWORKING.

Peter

Interested in Learning woodturning

Are you interested in Wood Turning and want to learn (BEGINNERS)
